

Marine Information Bulletin

Commercial licence – Marine Engine Driver Grade 2 (motor)

Limits of licence

The holder of this licence can act as chief engineer in:

- Commercial ships and fishing ships with propulsive power (motor) less than 500 kW engaged in operations within 200 nautical miles from the coast.
- Commercial ships and fishing ships with propulsive power (motor) less than 750 kW engaged in operations within 15 nautical miles of the coast or within 15 nautical miles of the boundaries of the designated sheltered (smooth and partially smooth) water limits.

Note: This licence is required to be revalidated every five years.

Application for licence

Candidates must personally lodge or make appropriate arrangements to lodge their marine licence application on form (F3103) with supporting documents at a Maritime Safety Queensland regional office.

Evidence of the prerequisites listed below must accompany the marine licence application. If supplying copies of original documents they must be suitably certified by a Justice of the Peace or a Commissioner of Declarations.

Prerequisites for licence

To be eligible for Maritime Safety Queensland's oral assessment candidates must:

- Be 18 years of age (evidence of identity required).
- Provide a current certificate of medical fitness (issued within the last two years) as defined in Medical Fitness Requirements (USL Schedule 1).
- Provide two recent colour passport photographs (taken within the last 12 months).
- Provide the Notification of Results of Sea Service Assessment form F4686 (valid for one year).
- Provide a TDM30207 Certificate III in Transport and Distribution (Marine Engine Driving – Grade 2) attesting to the satisfactory completion of the required competencies (within the last five years) issued by an authorised Registered Training Organisation (RTO).
- Pay the prescribed fees.

For further details refer to general licence profiles on Maritime Safety Queensland's website.

Note: The units of competency for Elements of Shipboard Safety, and Occupational Health and Safety at Sea are

perpetual.

Qualifying sea service

Sea service required for this licence is:

- No previous qualification:
 - 12 months appropriate sea service in ships with propulsive power above 150 kW of which 50% is within the last five years.
- Since gaining a licence as Marine Engine Driver Grade 3:
 - 50% is within the last five years
 - Six months appropriate sea service, in ships with propulsive power above 150 kW, while acting in a position normally requiring the possession of a Marine Engine Driver licence.
- Since gaining a trade qualification as a marine fitter, diesel or motor mechanic, refrigeration mechanic or an electrical fitter mechanic:
 - 50% is within the last five years
 - Three months of appropriate sea service, in ships with propulsive power above 150 kW, while acting in a position normally requiring the possession of a Marine Engine Driver licence.

Note: Candidates, who hold another trade qualification to those listed above, should speak to a marine assessor to discuss their options.

Sea service assessment

Candidates must personally lodge or make appropriate arrangements to lodge their sea service assessment application on form (F4634) at a Maritime Safety Queensland regional office.

Sea service will be assessed using the National Maritime Safety Committee's (NMSC) Principles for Assessing Sea Service – Circular N° 03-2 issued on 7 August 2003. A copy of this document can be accessed at www.msq.qld.gov.au/Licensing/Commercial/Sea-service.aspx.

Candidates must provide a Workplace-based Task Book (WBT book) signed off by an authorised RTO.

Satisfactory completion of the WBT book or a Record of Practical Experience and Sea-Service (ROPES) book will, where applicable, lead to a reduction of 50% of the qualifying sea service.

Under the Record of Service (ROS) book or ROPES book system, sea service is assessed in the basic unit of a 'month'. A month is defined as a minimum of 150 hours of work over a period of at least 20 days.

Maritime Safety Queensland requires candidates to gain appropriate quality sea service by competently performing the duties relevant to the level and discipline of the licence required. For example, performing the duties and accepting the responsibilities that would be comparable to that of a master, watchkeeper or deckhand onboard a ship.

Maritime Safety Queensland may request supporting documentation (that is, statutory declarations) to support ROS book or ROPES book entries.

Ratification of sea service does not automatically constitute acceptance. The Maritime Safety Queensland examiner determines final acceptance.

Note: Falsifying sea service is an indictable offence.

Oral assessment

Candidates are required to undertake an oral assessment, independent of the RTO, conducted by Maritime Safety Queensland before being issued a licence.

An appointment for an oral assessment can only be made after all of the requirements for the licence have been satisfied.

Candidates who successfully complete the oral assessment may request a temporary authority to allow them to operate immediately.

Information

Information on RTO's locations and Marine Information Bulletins covering various topics relating to marine licensing can be obtained from Maritime Safety Queensland's website at www.msq.qld.gov.au and from the following Maritime Safety Queensland regional offices.
