1. About this Publication

This publication has been prepared in response to requests from industry professionals and academics for more detailed information on the numbers and particulars of recreational vessels and those who have registered them.

This report is an Appendix to the report “Recreational Vessels in Queensland 2005 to 2014: A Compendium of Statistics”

The data presented in this Appendix has been tabulated from confidential reports which were extracted from the Department of Transport and Main Roads TRAILS Registration System (the register).

It does not include unpowered recreational vessels or recreational vessels powered by engines of less than 3 kilowatts or any other vessel which does not require registration.

This Appendix provides a collection of summary tables that offer different perspectives on the number of vessels registered and those to whom they have been registered.

The Appendix provides two sets of summary tables for each of the years 2005 to 2014.

The first set of tables records the number of vessels of each vessel type, length, engine type, the carriage of sails, and the year of the vessel’s manufacture for each maritime region.

The second set of tables records the gender, age and the years in which registrants were issued a recreational marine driver licence (RMDL) or personal watercraft licence (PWCL) for each maritime region.
